

Bottle-less Office Water Purification Systems from Watermark

Watermark bottle-less water purification systems feature reverse osmosis and micro-filtration. All of our systems contain ultra violet disinfection and moisture detection.

		SLM 10A
Water dispensed		Hot/Cold
Power consumption		110 watts
Storage capacity	Ambient	N/A
	Hot	0.5 gal.
	Cold	0.5 gal.
Filtration system		3 stage microfiltration
Production rating		>60 gph
Child safety lock		electronic
Disinfection technology		in tank UV
Tank materials		stainless steel
Display		LED
Dispensing tap		single port
Leak detection		auto shut down
Weight		77 pounds
Dimensions	Width	0.8"
	Depth	15.7"
	Height	15.2"
